WHOLESALE
PRICE LIST

Spring 1941

February 15, 1941

TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

APPLICATION OF PRICES:—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10; 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

Small Quantities:—Less than five of a variety and size is not wholesale, but, for the convenience of our wholesale customers, such orders will be filled at a premium of 5c per plant over the rate per ten with the exception of Evergreens and Deciduous Trees. On Deciduous Trees the premium will be 10% of the rate per ten but not less than 10c per plant.

Special Marking:—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

Quantity Discounts:—We offer the following quantity discounts for larger orders, but it is understood that these discounts are entirely contingent upon the prompt payment of the account in full on or before due date. Invoices that are past due or that have been previously settled cannot be included in figuring discounts.

\$200.00 to \$ 500.00	2%	\$ 500.00 to \$800.00	3%
800.00 to 1000.00	4%	1000.00 and up	5%

TERMS OF PAYMENT:—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

Cash Before Shipment:—A 3% discount plus quantity discounts will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

C. O. D. Shipments:—Orders for C. O. D. shipment should be accompanied by cash for one third of the amount of the order to insure acceptance.

GRADES:—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

PACKING:—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

BOXING CHARGES:—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30x30 inches	\$4.75	\$4.25	\$3.75	\$3.25
24x30 inches	4.25	3.75	3.25	2.75
24x24 inches	4.00	3.50	3.00	2.50
18x24 inches		3.00	2.65	2.25
18x18 inches		2.75	2.35	2.00
12x12 inches		2.00	1.65	1.35

Bales 35c and 50c to \$4.00 each depending on size.

TERMS AND CONDITIONS OF SALE — Continued

NON-WARRANTY AND LIABILITY:—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

CLAIMS:—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

DIRECTIONS FOR SHIPPING:—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and the risk and cost of transportation belong to the customer.

NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 3% Sales Tax require that, in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 3% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

TO THE TRADE

LOCATION AND SHIPPING FACILITIES:—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

TRUCK DELIVERIES:—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois and Iowa. Rates in most instances are the same as local freight rates.

Where the size of the shipment warrants, we are in a position to arrange for direct deliveries in bulk by truck at reasonable rates. Where customers wish to send their own trucks for bulk loading, it is advisable to give us at least three or four days advance notice so that we may have the material ready when the truck arrives and avoid delay. Care should be taken that all trucks carry sufficient tarpaulins to properly cover the stock, as we accept no responsibility whatever for the condition of the stock after it leaves our hands.

FRUITS

Caliper—It is intended that the caliper shall govern in the grading of fruit trees. Heights given are approximate only and represent the average height of most varieties, but some slow growing varieties may fall short of the heights specified.

APPLES

All of the Apples offered are budded trees, none are grafts.

	Per 10	Per 100
First Class, 11/16 to 7/8 inch, 4½ feet and up	\$ 2.60	\$ 22.50
First Class, 7/8 to 1 inch, 5 feet and up	3.20	27.50

Asparagus, Mary Washington Rustproof, 2-year No. 1, (3000 or more @ \$7.00 per 1000)	\$	\$ 1.50	\$ 8.00
Horseradish, Russian, strong crowns75	4.00	30.00
Horseradish, Russian, strong cuttings		1.50	10.00
Rhubarb, Myatt's Linnaeus, whole roots, 1½ inch and up55	3.50	30.00
Rhubarb, Myatt's Linnaeus, whole roots, 1 to 1½ inch45	2.40	20.00
Rhubarb, Myatt's Linnaeus, whole roots, 5/8 to 1 inch35	1.90	16.00
Rhubarb, Flare, whole roots, 1½ inch and up65	4.00	35.00
Rhubarb, Flare, whole roots, 1 to 1½ inch55	3.00	25.00
Rhubarb, Flare, whole roots, 5/8 to 1 inch45	2.40	20.00

Flare is a comparatively new variety, erect and compact in growth. The stalks are an attractive red throughout their length and the flesh is unusually crisp and tender.

DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

ACER dasycarpum — Soft or Silver Maple 60-80 ft.

A large tree of rapid growth, by far the sturdiest of our rapid growing trees.

	Per 10	Per 100
5 to 6 feet	\$ 2.30	\$ 20.00
6 to 8 feet	3.50	30.00
8 to 10 feet	5.00	45.00
1 1/4 to 1 1/2 inch caliper	6.50	55.00
1 1/2 to 1 3/4 inch caliper	8.50	75.00
1 3/4 to 2 inch caliper	11.00	95.00
2 to 2 1/2 inch caliper	13.50	

dasycarpum var. Skinner's Cut-leaved Maple 60-80 ft.

Very similar to the Wier's Cut-leaved Maple with more finely cut leaves.

5 to 6 feet	3.50	30.00
6 to 8 feet	6.00	50.00
8 to 10 feet	8.50	

platanoides — Norway Maple 50-60 ft.

One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park planting.

One Year Whips, 6 to 7 feet	(\$400.00 per 1000) 4.75	43.00
One Year Whips, 7 to 8 feet	(\$450.00 per 1000) 5.50	48.00
One Year Whips, 8 to 9 feet	(\$480.00 per 1000) 6.00	52.50

The one year whips offered above are Oregon grown from transplanted seedlings grown one year and then cut back to the ground. Straight whips, the best material obtainable for lining out to grow on.

6 to 8 feet, branched	8.50	75.00
8 to 10 feet, 1 to 1 1/4 inch caliper, branched	11.00	100.00
1 1/4 to 1 1/2 inch caliper, branched	13.50	125.00
1 1/2 to 1 3/4 inch caliper, branched	16.50	150.00
3 1/2 to 4 inch caliper	35.00	325.00
4 to 4 1/2 inch caliper	45.00	
4 1/2 to 5 inch caliper	55.00	

platanoides Schwedleri —Schwedler Purple-leaved Maple

A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer.

One Year Whips, 7 to 8 feet	9.50	85.00
One Year Whips, 8 to 10 feet	10.50	95.00

The one year whips offered above are Oregon grown from transplanted Norway Maple seedlings, grown one year, budded and cut back to the ground. Straight whips, the best material obtainable for lining out to grow on.

6 to 8 feet branched	16.00	
8 to 10 feet branched	18.50	
1 3/4 to 2 inch caliper	25.00	
2 1/2 to 3 inch caliper	37.50	
3 to 3 1/2 inch caliper	42.50	
3 1/2 to 4 inch caliper	47.50	

saccharum — Hard or Sugar Maple—70-90 ft.

The native Sugar or Rock Maple, a tall sturdy tree with an upright oval head.

5 to 6 feet	6.50	60.00
6 to 8 feet	9.50	85.00
8 to 10 feet, 1 to 1 1/4 inch caliper	12.50	110.00
1 1/4 to 1 1/2 inch caliper	15.00	135.00
1 1/2 to 1 3/4 inch caliper	19.00	175.00

DECIDUOUS TREES — CONTINUED

	Per 10	Per 100
ACER rubrum — Red Maple 50-60 ft.		
4 to 5 feet	8.50	
5 to 6 feet	10.00	
6 to 8 feet	14.00	
AESCULUS glabra — Ohio Buckeye 30-40 ft.		
3 to 4 feet	5.00	
4 to 5 feet	7.50	
<i>Aralia spinosa</i> — see under Deciduous Shrubs on page 15.		
Ash — see <i>Fraxinus</i> .		
BETULA alba — European White Birch—30-40 ft.		
A handsome graceful tree with white bark.		
4 to 5 feet	4.50	35.00
5 to 6 feet	6.00	50.00
6 to 8 feet	9.00	80.00
alba laciniata pendula — Cut-leaved Weeping Birch 30-40 ft.		
5 to 6 feet, wrapped in moss	9.00	80.00
6 to 8 feet, wrapped in moss	14.00	125.00
8 to 10 feet, wrapped in moss	18.50	170.00
1¼ to 1½ inch caliper, wrapped in moss	22.50	
1½ to 1¾ inch caliper, wrapped in moss	28.50	
Birch — see <i>Betula</i> .		
CATALPA Bungei — Umbrella Catalpa		
2 year heads, 5 to 6 foot stems	7.50	
2 year heads, 4½ to 5 foot stems	5.50	
1 year heads, 5 to 6 foot stems	5.00	45.00
1 year heads, 4½ to 5 foot stems	4.25	37.50
CELTIS occidentalis — Hackberry 60-70 ft.		
A valuable tough-wooded native shade tree with a straight trunk and broadly rounded head.		
5 to 6 feet	4.50	35.00
6 to 8 feet	6.50	
CERCIS canadensis — Red-Bud or Judas Tree 20-25 ft.		
A good hardy strain grown from local seed. <i>Cercis canadensis</i> is one of the numerous plants which will not prove hardy when moved into this section of the country from the South. Here at Princeton we are on the northern limits of the native Red-Bud, and these plants will prove much hardier than those grown from southern seed. Grown in bush form.		
18 to 24 inches	1.50	12.50
2 to 3 feet	1.80	15.00
3 to 4 feet	2.50	22.00
4 to 5 feet	3.50	30.00
5 to 6 feet	4.50	40.00
6 to 8 feet	7.00	60.00
8 to 10 feet	10.00	
CHERRY, JAPANESE FLOWERING (<i>Prunus serrulata sachalinensis</i> vars.)		
A very handsome group of flowering trees, well known for their profusion of pink and rose flowers in the Spring. Upright in habit of growth and very desirable in landscape work.		
Kwansan (Kansan-Sekinama) — one of the best, flowers rich rose-red, large, late, and very double.		
5 to 6 feet	10.00	
6 to 8 feet	15.00	
Naden (Prunus sieboldi) — double, deep pink.		
4 to 5 feet	8.50	
6 to 8 feet	15.00	
Paul Wohlert — a very fine semi-double red.		
4 to 5 feet	8.50	
6 to 8 feet	15.00	
Shirofugen —double, light pink in bud opening white, latest to bloom.		
5 to 6 feet	10.00	

DECIDUOUS TREES — CONTINUED

CRATAEGUS coccinea — Thicket Hawthorn 18-20 ft.

One of the most decorative of the native Hawthorns, forming a broad flat to rounded head.

	Per 10	Per 100
2 to 3 feet	3.00	25.00
2 to 3 feet, B&B	6.00	55.00
3 to 4 feet	4.00	35.00
3 to 4 feet, B&B	8.00	70.00
4 to 5 feet	7.00	60.00
4 to 5 feet, B&B	12.50	110.00
5 to 6 feet	10.00	
5 to 6 feet, B&B	17.50	

crusgalli — Cockspur Thorn 15-18 ft.

A very distinct Hawthorne, with stiff wide-spreading branches and dark shiny green leaves that turn orange and scarlet in the Fall.

18 to 24 inches	2.50	20.00
18 to 24 inches, B&B	5.00	45.00
2 to 3 feet	4.00	30.00
2 to 3 feet, B&B	6.00	55.00
3 to 4 feet	5.00	42.50
3 to 4 feet, B&B	8.50	75.00
4 to 5 feet	7.50	65.00
4 to 5 feet, B&B	12.00	110.00

oxycantha pauli — Paul's Double Scarlet Hawthorn 15-20 ft.

Brilliant double scarlet flowers in June.

4 to 5 feet, well branched	7.50	65.00
----------------------------------	------	-------

Elaeagnus angustifolia — see under Shrubs on page 18.

Flowering Crabs — see under *Malus* on pages 9 and 10.

FRAXINUS americana — American White Ash 70-80 ft.

A tall tree with an upright oval head, much used for street and park planting.

5 to 6 feet	2.60	22.00
6 to 8 feet	4.00	35.00
8 to 10 feet	6.00	55.00
1¼ to 1½ inch caliper	8.00	70.00
1½ to 1¾ inch caliper	10.00	90.00

lanceolata — Green Ash 50-60 ft.

A somewhat smaller grower than the White Ash, particularly adapted to planting in cold and dry climates.

4 to 5 feet	2.00	16.00
5 to 6 feet	2.50	20.00
6 to 8 feet	3.50	30.00
8 to 10 feet	5.50	50.00
1¼ to 1½ inch caliper	7.50	65.00
1½ to 1¾ inch caliper	9.00	80.00
1¾ to 2 inch caliper	11.50	100.00

GLEDITSCHIA triacanthos inermis — Thornless Honey-locust 50-60 ft.

An almost, but not entirely, thornless type of the common Honey-locust.

5 to 6 feet	4.00	35.00
6 to 8 feet	5.50	50.00
8 to 10 feet	8.50	75.00

GYMNOCLADUS dioica — Kentucky Coffeetree 70-90 ft.

5 to 6 feet	4.00	35.00
6 to 8 feet	6.00	50.00
8 to 10 feet	8.00	70.00
1¼ to 1½ inch caliper	10.00	85.00
1½ to 2 inch caliper	11.50	100.00
2 to 2½ inch caliper	15.00	

Hackberry — see *Celtis occidentalis*.

Honey-locust — see *Gleditschia*.

DECIDUOUS TREES — CONTINUED

	Per 10	Per 100
JUGLANS cinerea — Butternut or White Walnut 50-60 ft.		
4 to 5 feet, once transplanted	3.00	25.00
5 to 6 feet, once transplanted	4.00	35.00
6 to 8 feet, once transplanted	6.50	
nigra — Black Walnut 80-100 ft.		
3 to 4 feet, once transplanted	2.00	16.00
4 to 5 feet, once transplanted	2.40	20.00
5 to 6 feet, once transplanted	3.25	28.00
6 to 8 feet, once transplanted	4.25	37.50
8 to 10 feet, twice transplanted	7.00	60.00
1¼ to 1½ inch caliper, twice transplanted	7.50	65.00
1½ to 2 inch caliper, twice transplanted	9.00	80.00
2 to 2½ inch caliper, twice transplanted	12.00	110.00
2½ to 3 inch caliper, twice transplanted	15.00	135.00

Kentucky Coffeetree — see *Gymnocladus*.

Linden — see *Tilia*.

MAGNOLIA glauca — Sweetbay 20-30 ft.

A small tree with thick smooth lustrous dark green leaves and fragrant creamy-white flowers throughout the summer.

15 to 18 inches, B&B	Each	\$ 1.00	\$ 9.00
18 to 24 inches, B&B	Each	1.50	13.50

soulangeana — Saucer or Chinese Hybrid Magnolia 30-40 ft.

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

(All own-root plants, no grafts)

2 to 3 feet, B&B	Each	\$ 2.75	\$ 25.00
3 to 4 feet, B&B, a few bloom buds	Each	3.25	30.00
4 to 5 feet, B&B, well budded	Each	4.25	40.00
5 to 6 feet, B&B, well budded	Each	5.25	50.00
6 to 8 feet, B&B, heavily budded	Each	6.50	62.50

stellata (Magnolia halleana) — Star Magnolia 8-10 ft.

The hardiest of the Spring-flowering Magnolias. A much-branched wide-spreading large shrub bearing a profusion of large white fragrant blooms before the leaves in the Spring. Earliest of the Magnolias to bloom. Blooms profusely when quite small and the plants that we have are well budded.

(All own-root plants, no grafts)

18 to 24 inches, B&B, well budded	Each	\$ 3.00	\$ 27.50
2 to 2½ feet, B&B, well budded	Each	3.50	32.50
2½ to 3 feet, B&B, well budded	Each	4.25	40.00

MALUS — Flowering Crabs

Small trees producing a profusion of flowers in the Spring—one of the most desirable and most decorative classes of our ornamental flowering trees. All are small trees, very free-flowering, producing masses of very showy flowers early in the Spring, followed in the Fall by decorative fruits that often persist on the trees well into the Winter. They are perfectly hardy, grow well in any good soil, and are very satisfactory either as specimen plants or in mass plantings.

MALUS ioensis plena — Bechtel Double-flowering Crab 15-18 ft.

This is probably the best known of all of the many Flowering Crabs. It forms a small upright bushy headed tree which is covered in May with large and very double fragrant pink flowers that bear a striking resemblance to small roses. The latest in blooming period of all of the Flowering Crabs.

18 to 24 inches	2.30	20.00
2 to 3 feet	2.90	25.00
3 to 4 feet	4.00	35.00
4 to 5 feet	5.50	50.00

Malus - Flowering Crabs — Continued on pages 10 and 11.

DECIDUOUS TREES — CONTINUED

MALUS sargentii — Sargent's Crab 5-6 ft.

A low-growing bush form Crab, with rigid wide-spreading horizontal branches; when mature it is usually broader than high. One of the most decorative of the Flowering Crabs and very floriferous. Flowers cup-shaped, pure white, about an inch across. The first of the Crabs to bloom in the Spring.

MALUS - Flowering Crabs — Descriptive List**MALUS adstringens** 25-30 ft.

An upright tree of strong growth and shapely habit; very floriferous and very showy in bloom. The flowers are very large, very dark red in bud, opening to a deep rose-pink.

arnoldiana — Arnold Crab 16-18 ft.

A fine hybrid closely resembling *Malus floribunda*, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

atrosanguinea — Carmine Crab 12-16 ft.

A spreading shrubby tree resembling *Malus floribunda* in general appearance, but with flowers of a deep rose-carmine that does not fade to white. A very heavy bloomer and a tree of striking appearance.

baccata — Siberian Crab 18-20 ft.

A small round-headed tree, earliest of the Crabs to bloom. The flowers are very large and handsome, pinkish white fading to pure white, and are followed in the Fall by cherry-like red or orange fruits.

baccata — Gibbs Golden Gage 18-20 ft.

A type of *Malus baccata* differing chiefly in the size and shape of the very decorative fruits, which are of medium size, waxy, five-sided, and a translucent yellow.

baccata pruneformis 18-20 ft.

Another *Malus baccata* type with typical flowers and attractive five-sided red or yellow fruits.

brevipes 12-16 ft.

Closely related to *Malus floribunda*, but a lower denser grower. Very free flowering and attractive with large nearly white flowers.

DECIDUOUS TREES — CONTINUED

MALUS - Flowering Crabs — Descriptive List — Continued

- MALUS coronaria** — Wild Sweet Crab 15-20 ft.
Very showy blush-pink flowers, the most showy of the native Flowering Crabs.
- floribunda** — Japanese Flowering Crab 15-18 ft.
Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink blooms that gradually fade to white.
- hopa** — Hopa Crab 20-25 ft.
A very attractive variety of strong upright growth, probably a variety of *Malus adstringens*. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are very distinctly red fleshed.
- ioensis palmeri** — Palmer Crab 15-18 ft.
A regional variety of the native Prairie Crab, coming from the Missouri area. A small spiny tree of compact growth, an improvement over the native Prairie Crab. Flowers large, rosy-pink fading to rosy-white.
- prunefolia rinki** — Ringo Crab 15-18 ft.
A strong growing variety with wide-spreading branches and large flower trusses. Delicate pink in bud, followed by almost white flowers. The very decorative red or yellow fruit is produced very abundantly and persists on the tree well into the Winter.
- purpurea aldenhamensis** — Aldenham Crab 16-18 ft.
Another very showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.
- purpurea Eleyi** — Eley Crab 16-18 ft.
A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by dark purple fruits.
- robusta** — Cherry Crab 20-25 ft.
A handsome tree of strong upright growth. Flowers large, very fragrant, soft pink to white. One of the earliest of the Crabs to bloom.
- seiboldi calocarpa (M. zumi calocarpa)** — Toringo Crab 15 ft.
A wide-spreading shrubby Crab with large dark-pink flowers followed by small scarlet fruits. A very floriferous and attractive variety.
- zumi** — Zumi Crab 12-14 ft.
A shrubby tree with a dense upright habit of growth. Flowers large, pale pink in bud, opening white.

Maple — see *Acer*.

MORUS alba pendula — Tea's Weeping Mulberry	Per 10	Per 100
2 year heads, 5 to 6 foot stems	12.50	
1 year heads, 5 to 6 foot stems	10.00	
1 year heads, 4½ to 5 foot stems	8.00	

Mountain Ash — see *Sorbus aucuparia*.Mulberry — see *Morus*.Oak — see *Quercus*.

PLATANUS occidentalis — American Sycamore 80-90 ft.		
A very large native shade tree with light green exfoliating bark.		
1¾ to 2 inch caliper	12.00	110.00
2 to 2½ inch caliper	14.00	125.00
2½ to 3 inch caliper	16.50	150.00

Poplar — see *Populus*.

POPULUS alba bolleana — Bolleana Poplar 50-60 ft.		
A narrow-columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigate Poplars.		
6 to 8 feet, own root	5.00	45.00
8 to 10 feet, 1 to 1¼ inch caliper, own root	7.50	65.00

5 to 6 feet	9.00
6 to 8 feet	12.50
8 to 10 feet	18.00

palustris — Pin Oak 70-80 ft.

One of the most handsome of the Oaks, forming a broadly pyramidal head. Often used as a street tree. A comparatively rapid grower and more easily transplanted than other Oaks.

4 to 5 feet	5.50	50.00
5 to 6 feet	9.00	80.00
6 to 8 feet	12.50	100.00

rubra — Red Oak 70-90 ft.

4 to 5 feet	7.00
5 to 6 feet	9.00
6 to 8 feet	12.50
8 to 10 feet	17.50

Red-bud — see *Cercis canadensis* on page 7.

SALIX caprea — Goat Willow or European Pussy Willow 15-20 ft.

Very showy catkins in the Spring. One of the best Pussy Willows for cutting.

4 to 5 feet, heavy	3.00
5 to 6 feet, heavy	3.60

DECIDUOUS TREES — CONTINUED

SALIX blanda — Wisconsin Weeping Willow 40-50 ft.

This is the hardiest of the Weeping Willows and for that reason, we believe, the best for planting in this section of the country. Well headed trees with strong straight stems.

	Per 10	Per 100
3 to 4 feet	1.75	14.00
4 to 5 feet	2.10	18.00

3 to 3½ inch caliper	20.00	
4 to 5 inch caliper	40.00	

cordata — Small-leaved European Linden 70-80 ft.

One of the best of the European Lindens with a very desirable habit of growth, much in demand as a street tree. Very small leaves.

4 to 5 feet	5.00	40.00
5 to 6 feet	6.00	50.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS TREES — CONTINUED

ULMUS americana — American White Elm 80-100 ft.

We are offering a particularly desirable type of American White Elm. Princeton is noted for its exceptionally fine Elms—tall straight-trunked vase-shaped trees of the best type. Seed selected from the best of these Elms gives a very even and desirable type of vase-shaped trees.

	Per 10	Per 100
6 to 8 feet	3.50	30.00
8 to 10 feet, 1 to 1¼ inch caliper	5.00	45.00

3½ to 4 inch caliper	27.50	250.00
4 to 4½ inch caliper	35.00	

Walnut — see Juglans.

Willow — see Salix.

DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, and well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

ACANTHOPANAX (*Aralia*) *pentaphyllum* — Five-leaved Aralia 6-7 ft.

A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.

	Per 10	Per 100
18 to 24 inches	\$ 1.40	\$ 11.00
2 to 3 feet	1.70	14.00
3 to 4 feet	2.20	18.00
4 to 5 feet	2.75	22.50

ALMOND — Pink Flowering (*Prunus glandulosa rosea*) 5 ft.

Heavy well branched plants. We are growing all of our Almonds on their own roots. Such plants are much more compact and better in shape than those grown on Plum roots.

18 to 24 inches, own root	1.90	16.00
2 to 3 feet, own root	2.50	22.00
3 to 3½ feet, own root	3.00	27.00
3½ to 4 feet, own root	3.60	32.00
3 to 4 feet, on Plum	3.00	
4 to 5 feet, on Plum	4.00	

White Flowering Almond (*Prunus glandulosa albiplena*)

The double white form of the Flowering Almond.

2 to 3 feet, on Plum	2.50	
3 to 4 feet, on Plum	3.00	
4 to 5 feet, on Plum	4.00	

Dwarf Russian Almond (*Prunus nana*) 3 ft.

A very hardy and quite dwarf Flowering Almond with rosy-red flowers early in the Spring. Not as free-flowering as the above.

18 to 24 inches	2.10	18.00
2 to 3 feet	2.50	22.00
3 to 3½ feet	3.00	26.00

ALTHAEA or Rose of Sharon (*Hibiscus syriacus*) 10-12 ft.

Bush Form, 2 to 3 feet	1.70	14.00
Bush Form, 3 to 4 feet	2.10	18.00
Tree Form, 3 to 4 feet	2.50	22.00

Anemonaeflorus — double, rose-pink.

Jeanne d'Arc — double, white.

Lucy — the best double red.

Purpurea Semi-plena — semi-double, purple.

Rubis — single, red.

Snowdrift — a very fine single white.

Coelestis—bush form, 18 to 24 inches	2.70	24.00
Coelestis—bush form, 2 to 3 feet	3.30	30.00

Best of all of the Althaeas, with flowers of a beautiful china-blue, blooming continuously from mid-summer until late fall. Plants rather dwarf.

Aralia pentaphylla — see *Acanthopanax pentaphyllum*.

ARALIA *spinosa* — Devil's walkingstick 15-18 ft.

4 to 5 feet	2.00	
5 to 6 feet	2.75	
6 to 8 feet	4.50	
8 to 10 feet	6.00	

ARONIA *arbutifolia* — Red Chokeberry 8 ft.

The most handsome of the Aronias, with lustrous dark green leaves that turn scarlet in the Fall, and bright red berries.

18 to 24 inches	1.50	12.00
2 to 3 feet	2.00	17.00
3 to 4 feet	2.60	22.50
4 to 4½ feet	3.50	

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

Arching branches and attractive foliage make this a very attractive massing shrub. Covered with red berries in the Fall.			
18 to 24 inches, well branched	3.50	
Cranberry, Highbush — see <i>Viburnum americanum</i> and <i>Viburnum opulus</i> .			
CYDONIA japonica — Japanese Flowering Quince	5-6 ft.		
15 to 18 inches	1.25	10.00
18 to 24 inches	1.60	12.50
2 to 3 feet	2.10	18.00
DEUTZIA lemoinei — Lemoine's Deutzia	5 ft.		
A handsome and free-flowering semi-dwarf shrub, one of the hardiest of the Deutzias.			
15 to 18 inches	1.60	13.00
18 to 24 inches	2.20	
scabra crenata plena — Double Rose Deutzia	10-12 ft.		
Large double rose-pink flowers in June.			
18 to 24 inches	1.30	10.00
2 to 3 feet	1.60	13.00
scabra Pride of Rochester — Large-flowered Deutzia	10-12 ft.		
A strong grower and a free bloomer; large and long-lasting double white to pale pink flowers in late May.			
18 to 24 inches	1.20	9.00
2 to 3 feet	1.40	11.00
3 to 4 feet	1.70	14.00
Dogwood — see <i>Cornus</i> .			

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

ELAEAGNUS angustifolia — Russian Olive 15-20 ft.

We have a large quantity of fine plants which we are quoting at very low prices.

	Per 10	Per 100
3 to 4 feet	1.75	14.00
4 to 5 feet	2.20	18.00
5 to 6 feet	2.60	22.00
6 to 8 feet	3.50	30.00
8 to 10 feet	5.50	

Elder — see Sambucus.

EUONYMUS alatus — Winged Euonymus or Burning-bush 8 ft.

Best of the hardy types of Euonymus. A compact slow-growing bush form with corky winged bark. Foliage turns brilliant red with the first frosts.

	Per 10	Per 100
15 to 18 inches	2.60	22.50
18 to 24 inches	3.20	28.00
2 to 3 feet	4.25	38.00

americanus — Brook Euonymus 6-8 ft.

An attractive upright shrub with large and very showy pink fruits.

2 to 3 feet	2.00	17.00
3 to 4 feet	2.30	20.00
4 to 5 feet	3.00	25.00

bungeanus — Winterberry Euonymus 15 ft.

A large shrub or small tree with a loose graceful habit. Bright pink fruits that hang on the tree long after the leaves have fallen.

4 to 5 feet	3.50	30.00
-------------------	------	-------

atropurpureus — Wahoo 10-12 ft.

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.50	30.00

europaeus — European Burning-bush 12-14 ft.

A large shrub or small tree, heaviest fruiting of all the Euonymus. Brilliant autumn foliage.

18 to 24 inches	1.50	12.00
2 to 3 feet	1.80	15.00
3 to 4 feet	2.10	18.00
4 to 5 feet	2.75	24.00
5 to 6 feet	3.25	28.00

yeddoensis — Yeddo Euonymus 8 ft.

A broad-headed shrub with good foliage and attractive pink fruit. In type of growth it is much like *Euonymus alatus* and makes a very satisfactory massing shrub.

2 to 3 feet	2.20	18.00
3 to 4 feet	2.60	22.50
4 to 5 feet	3.25	27.50

EXOCHORDA grandiflora — Pearlbush 8-10 ft.

A very attractive large shrub with dazzling white flowers in late May. A very profuse bloomer.

3 to 4 feet	2.00	
4 to 5 feet	2.50	

FORSYTHIA fortunei — Fortune's Forsythia 8-10 ft.

Upright shrub with arching branches. Yellow flowers early in April.

2 to 3 feet	1.30	10.00
3 to 4 feet	1.60	12.50
4 to 5 feet	2.00	16.00

DECIDUOUS SHRUBS — CONTINUED

FORSYTHIA intermedia — Border Forsythia 8-10 ft.		
A vigorous and free-flowering shrub with arching branches, hardiest of the Forsythias.		
2 to 3 feet	Per 10	Per 100
3 to 4 feet	1.30	10.00
4 to 5 feet	1.60	12.50
2 to 3 feet	2.00	16.00
Dwarf Forsythia 2-3 ft.		
A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.		
12 to 15 inches	1.60	13.00
15 to 18 inches	2.00	17.00
18 to 24 inches	2.75	22.50
2 to 2½ feet	3.20	28.00
intermedia spectabilis — Showy Border Forsythia 8-10 ft.		
An improved form of Forsythia intermedia with larger showier flowers.		
3 to 4 feet	1.80	15.00
4 to 5 feet	2.20	18.00
suspensa — Weeping Forsythia 6-8 ft.		
Shrub with long vine-like pendulous branches, excellent for massing and bank plantings.		
2 to 3 feet	1.75	14.00
3 to 4 feet	2.00	16.00
4 to 5 feet	2.40	20.00
Fringe-tree, White—See Chionanthus virginica.		
Hazelnut — see Corylus americana.		
Hibiscus—see Althaea.		
Honeysuckle — see Lonicera.		
HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.		
Large, snowball-like heads of white flowers in June and July.		
Prefers moist and partly shady places.		
18 to 24 inches	1.90	16.00
2 to 3 feet	2.30	20.00
3 to 3½ feet	2.75	24.00
paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.		
Large paniced heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type.		
12 to 18 inches	1.30	10.00
18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
3 to 3½ feet	2.90	25.00
ILEX verticillata — Winterberry or Black Alder 6-8 ft.		
A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.		
18 to 24 inches	2.30	
2 to 3 feet	2.80	25.00
3 to 4 feet	3.60	32.00
KOLKWITZIA amabilis — Beauty Bush 6-8 ft.		
A large shrub with slender graceful arching branches and pink weigela-like flowers early in June.		
15 to 18 inches	2.00	17.00
18 to 24 inches	2.50	
2 to 3 feet	3.50	
3 to 4 feet	4.00	
LIGUSTRUM amurense — Amoor River North Privet		
Northern grown transplanted heavily branched stock that was all cut back to the ground last Spring.		
12 to 18 inches, 3 canes and up	(\$28.00 per 1000)	.55 3.50
12 to 18 inches, 8 canes and up	(\$38.00 per 1000)	.65 4.50
18 to 24 inches, 4 canes and up	(\$38.00 per 1000)	.65 4.50
18 to 24 inches, 8 canes and up	(\$50.00 per 1000)	.75 6.00
2 to 3 feet, 4 canes and up	(\$50.00 per 1000)	.75 6.00
2 to 3 feet, 8 canes and up	(\$75.00 per 1000)	1.00 8.50
3 to 4 feet, 8 canes and up	(\$90.00 per 1000)	1.25 10.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

LIGUSTRUM ibota regalianum — Regal's Prostrate Privet

The true low-growing spreading type, grown from cuttings.

	Per 10	Per 100
15 to 18 inches	1.50	12.00
18 to 24 inches	1.90	16.00
24 to 30 inches	2.30	20.00
30 to 36 inches	2.90	25.00

Lilac — see *Syringa*.**LONICERA bella rosea — Pink Belle Honeysuckle 7-8 ft.**

A spreading upright grower of medium height. Bright pink flowers and red fruits.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

grandiflora rosea — Bride Honeysuckle 10-12 ft.

One of the best of the many upright bush Honeysuckles. Bright pink flowers and red fruits.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

syringantha wolffi — Wolf Honeysuckle 4-5 ft.

A little known tho very attractive Honeysuckle, with twiggy spreading or drooping branches and narrow blue-green leaves. The tubular pinkish-lilac blooms, borne chiefly in May but scatteringly throughout the Summer, are very fragrant.

18 to 24 inches, well branched	3.00	
--------------------------------------	------	--

tatarica rosea — Pink Tatarian Honeysuckle 10-12 ft.

A very hardy and vigorous grower, best known of the bush Honeysuckles. Bright pink flowers and red fruits.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

tatarica siberica — Red Tatarian Honeysuckle 8-10 ft.

The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

MAHONIA aquilifolium — Oregon Hollygrape 3-4 ft.

A handsome shrub with dark green shining leaves that turn purplish in the Fall. Very showy and attractive bluish-black fruits in the Summer. Evergreen further south, but sheds its leaves in this latitude.

(For delivery in Illinois only.)

12 to 15 inches, B&B	6.50	
15 to 18 inches, B&B	9.00	
18 to 24 inches, B&B	12.00

DECIDUOUS SHRUBS — CONTINUED

RHUS canadensis (Rhus aromatica) — Fragrant Sumac 4-5 ft.		
A fine low massing shrub with dark green aromatic foliage that turns orange and scarlet in the Fall.		
18 to 24 inches	1.80	15.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.75	32.50
typhina laciniata — Fern-leaved or Shredded Sumac 10 ft.		
One of the most handsome of the taller Sumacs, with very finely cut foliage that turns yellow and scarlet in the Fall.		
18 to 24 inches	1.20	9.00
2 to 3 inches	1.80	15.00
ROBINIA hispida — Rose Acacia or Moss Locust 6 ft.		
A shrub Locust with very attractive foliage, bearing a profusion of rosy pink flowers in May. Grafted to prevent suckering.		
18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
kelseyi — Kelsey's Rose-flowered Locust 6 ft.		
A very graceful and handsome shrub, probably the best of the shrub-form flowering locusts; better in form of growth and showier in flower than Robinia hispida. Flowers large, purplish rose.		
18 to 24 inches	2.30	20.00
ROSA blanda — Meadow Rose 4-5 ft.		
2 to 3 feet	1.75	14.00
3 to 4 feet	2.00	17.00
lucida (Rosa virginiana) — Virginia Rose 5-6 ft.		
2 to 3 feet	1.60	13.00
3 to 4 feet	1.90	16.00
rugosa rubra — Japanese Ramanas Rose 3-5 ft.		
18 to 24 inches	2.60	22.00
setigera — Prairie Rose 4-6 ft.		
One of the most attractive of the native massing Roses with long arching branches and attractive large single pink flowers.		
2 year No. 1, 2 to 3 feet	1.60	13.00
2 year No. 1, 3 to 4 feet	2.00	16.00
Russian Olive — see <i>Elaeagnus angustifolia</i> .		
SAMBUCUS canadensis acutiloba — Cut-leaved Elder 8-10 ft.		
3 to 4 feet	1.60	12.50
4 to 5 feet	1.90	16.00
nigra aurea — Golden-leaved Elder 10 ft.		
The foliage is a bright golden yellow which holds its depth of color throughout the season if planted in full sun.		
3 to 4 feet	1.80	15.00
4 to 5 feet	2.30	20.00
5 to 6 feet	2.80	25.00
Snowball — see <i>Viburnum opulus sterile</i> .		
Snowberry — see <i>Symphoricarpos</i> .		
SORBARIA sorbifolia — Ash-leaved Spirea or Ural False Spirea 5-6 ft.		
2 to 3 feet	1.50	12.00
3 to 4 feet	1.80	15.00
4 to 5 feet	2.10	17.50
SPIRAEA Anthony Waterer— 3-4 ft.		
A well known dwarf shrub with numerous heads of bright red flowers thru the Summer.		
15 to 18 inches	1.50	12.00
18 to 24 inches	1.90	16.00
24 to 30 inches	2.20	19.00
30 to 36 inches	2.75	24.00
callosa alba (S. japonica) — Japanese White Spirea 2-3 ft.		
Similar to <i>Spiraea Anthony Waterer</i> but with yellow green foliage and white flowers.		
18 to 24 inches	1.75	14.00
24 to 30 inches	2.00	17.00

DECIDUOUS SHRUBS — CONTINUED

SPIRAEA arguta — Snowgarland 5-6 ft.

An upright hardy shrub with narrow light green foliage, which produces a wealth of small white flowers before the leaves in the Spring. Similar to, but more vigorous in growth than *Spiraea thunbergii*.

	Per 100	Per 100
18 to 24 inches.....(\$ 80.00 per 1000)	1.20	9.00
2 to 3 feet.....(\$100.00 per 1000)	1.50	12.00
3 to 4 feet.....(\$120.00 per 1000)	1.80	15.00
4 to 5 feet	2.40	20.00

froebeli — Froebel Spirea 4 ft.

Similar in type of growth to *Spiraea Anthony Waterer* but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.

18 to 24 inches	1.40	11.00
24 to 30 inches	1.70	14.00
30 to 36 inches	2.00	17.00

prunefolia plena — Double Bridalwreath 5-6 ft.

The true Bridalwreath, with small plum-like leaves and very double white flowers borne in few-flowered umbels. Free-flowering.

2 to 3 feet	2.50	22.00
3 to 4 feet	3.30	30.00

thunbergii — Thunberg's Garland Spirea 3-4 ft.

Dwarf shrub with slender spreading branches and feathery light green foliage. Covered with a wealth of small white flowers before the leaves in the Spring.

15 to 18 inches	1.20	9.00
18 to 24 inches	1.40	11.00
2 to 2½ feet	1.70	14.00
2½ to 3 feet	2.00	17.00
3 to 3½ feet	2.50	21.00

trichocarpa — Korean Spirea 5 ft.

One of the newer *Spiraeas*, quite similar to *Spiraea Van Houttei* in growth and type of bloom. The blooms, however, are larger and showier and appear about two weeks later.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.80	15.00

Van Houttei — commonly known as Bridalwreath 6-7 ft.

One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.

18 to 24 inches80	5.50
2 to 3 feet	1.10	8.00
3 to 4 feet	1.60	13.00
4 to 5 feet	1.90	16.00

Sumac — see *Rhus*.

SYMPHORICARPOS chenaulti — Spotted Snowberry 4-5 ft.

The best and most handsome of the Snowberries. A new hybrid with small leaves and white fruit spotted with pink.

18 to 24 inches	1.00	7.50
2 to 3 feet	1.30	10.00
3 to 4 feet	1.70	14.00

racemosus — White Snowberry 4-5 ft.

3 to 4 feet	1.90	16.00
-------------------	------	-------

vulgaris — Red Snowberry or Coralberry 4-5 ft.

A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.

12 to 18 inches60	4.50
18 to 24 inches.....(\$60.00 per 1000)	.90	7.50
2 to 3 feet	1.20	9.00
3 to 4 feet	1.50	12.00

Syringa-Lilacs — see pages 24 to 28.

FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list that contains the better and more popular of the older varieties as well as many of the newer and finer types.

OWN-ROOT Plants:—The Lilacs which we offer here are own-root plants. Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are then planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the field.

Own-root plants have the marked advantage over budded plants in that they are perfectly hardy and therefore much longer lived, and that all of the sprouts from the roots will be true to variety. Many nurserymen propagate French Lilacs by budding above the ground on California Privet, or, tho much less frequently, on Common Lilac stocks. Plants budded on Privet are almost invariably short lived unless the plant is set low enough in the ground when transplanted so that the Lilac can develop its own roots, a type of planting seldom accomplished with developed plants even by persons who understand the necessity for deep planting. If planted at the normal depth the plants are not root-hardy, as the tender Privet is apt to kill off during severe winters. Plants left too long on Privet roots are apt to develop a "graft blight" resulting from insufficient union with and overgrowth of the root stock by the scion. Buds on Common Lilac, on the other hand, are root-hardy and make a good union, but the root stocks invariably sprout. Such sprouts, being hard to distinguish from the budded variety and also usually being of stronger growth, often drown out the buds.

In order to facilitate pricing, we have divided the Lilacs which we are offering into four price groups.

For additional varieties of French Lilacs and Descriptive List and Color Classification see pages 25, 26, and 27.

SYRINGA HYACINTHIFLORA HYBRIDS

A comparatively new group of Lilac Hybrids, resulting from a cross between *Syringa vulgaris* and *Syringa oblata* or, more frequently, its variety, *Syringa oblata* Giraldi. The group is characterized by its rapid growth and very early blooming period, blooming about ten days to two weeks ahead of the Common Lilacs. The individual flowers are large and sweet-scented and the flower clusters are also very large, often a foot long.

		Per 10	Per 100
<i>Syringa hyacinthiflora</i> , Named Varieties, 12 to 18 inches.....		\$ 2.10	\$ 18.00

<i>Syringa hyacinthiflora</i> , Vauban only, 5 to 6 feet		6.25	57.50

Buffon—single, very attractive mauve-pink flowers with reflexed lobes.

Claude Bernard—long panicles of double or semi-double bright mauve lilac flowers.

Descartes — large panicles of single mauve pink flowers, extra floriferous. The color comes nearer to a clear pink than that of any other variety in the group.

Lamartine—one of the earliest to bloom; single, extremely large trusses of beautiful pale pink flowers.

Pascal—very light free-flowering; single, a fine light mauve-pink.

Vauban—flowers double, sometimes semi-double, light lilac-pink tho much darker in bud.

FRENCH LILACS — DESCRIPTIVE LIST

- Alphonse Laval — flowers double, of medium size, clear lavender-violet, deeper within than without. Clusters large, shapely, and compact. A splendid variety.
- Charles Joly — flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around double dark reds.
- Charles X — an old free-flowering favorite. Flowers single, of medium size, reddish-violet; compact clusters of medium size. One of the most free-flowering of all of the French Lilacs.
- Congo — single flowers in large open clusters. An old and very popular variety, very deep reddish purple without, lighter within the corolla.
- De Croncels — single flowers of medium size in open pyramidal clusters; a fine bright red in bud expanding to lilac-red.
- De Mirabel — flowers single, large, very dark bluish-violet; clusters large. An outstanding bloom and one of our darkest Lilacs, but the plant is slow-growing and rather dwarf.
- Desfontaines — flowers large, double, violet-blue; in very large open clusters. A conspicuous variety of excellent growth characteristics and a good clear color.
- Diderot — flowers single, extra large, very deep red; in long, large clusters. A very fine bloom and an outstanding example of the modern showy Lilac, but, like many of the darker Lilacs, is a slow dwarf grower.
- Edouard Andre — double flowers of medium size in open much-branched clusters; clear rose, or nearly pink. One of the best of the pink Lilacs.
- Emile Lemoine — double well-formed flowers of medium size in large open clusters. As near an approach to pure pink as is usually found in Lilacs.
- Frau Bertha Dammann — single white flowers of medium size in unusually large open clusters.
- Frau Wilhelm Pfitzer — large single flowers in long open clusters; pale bluish-violet. A strong thrifty plant and an excellent variety.
- Hugo Koster — single, bluish-violet to light reddish-purple, flowers and clusters both very large. One of the best of the single Lilacs, distinct and attractive.
- Jan Van Tol — single, very fragrant, pure white. A dwarf stocky grower with enormous individual flowers in very large symmetrical clusters. An outstanding variety, particularly in the size of the flowers.
- Jean Mace — large double flowers in large and very compact clusters; bluish-mauve. A fine variety with an unusually good thrifty habit of growth, one of the most free-flowering of the French Lilacs.
- Jeanne d'Arc — large double white flowers in long open clusters. A very fine and showy variety. Plant rather dwarf and a late bloomer.
- La Mauve — double; pale lilac-pink flowers in long narrow clusters.
- Ludwig Spaeth — flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark lilac.
- Mme. Casimir Perier — large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.
- Mme. Lemoine — flowers large, double, pure white; clusters narrow, medium to large. One of the most satisfactory and popular of the double whites, and a very dependable bloomer.
- Mme. Leon Simon — flowers large, double, in fine large open clusters; lilac-pink. Strong narrow upright grower.
- Marechal Lannes — flowers semi-double to double, exceptionally large; in large, full, erect clusters; bluish-violet. A choice and very showy variety.
- Marie LeGraye — flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.
- Maurice Barres — flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.
- Michael Buchner — flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.
- Miss Ellen Willmott — flowers large, double to very double, creamy white; in very large and long panicles. A strong grower and very free bloomer, generally rated as the best of the double white Lilacs.
- Montaigne — flowers very large and double; in long narrow clusters; mauve pink. A fine variety of strong growth.
- Mont Blanc — flowers white, single, very large; in long well-filled clusters. A very showy and beautiful variety that we consider the best of the single white Lilacs.
- Paul Therion — large double flowers in very large and showy well-filled clusters; rosy-lavendar tinged claret, much resembling large double violets. A very fine and showy variety.
- Pres. Carnot — flowers large, double, light lilac blue; in long narrow clusters. A free-blooming strong-growing variety of very good color.
- Pres. Faillieres — large pale lavender flowers in very large clusters. An outstanding variety with good growth characteristics and showy flowers.

FRENCH LILACS — DESCRIPTIVE LIST — Continued

- Pres. Grevy — flowers large, semi-double to double, in large pyramidal clusters; a clear soft delicate blue. An old variety that is still one of the best of its color.
- Reamur — flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.
- Renoncule (*Ranunculata*) — flowers fragrant, double, of medium size, in narrow compact clusters; a pleasing even blue. Free flowering and a strong grower.
- Ville de Limoges — single flowers of medium size in well-filled pyramidal clusters; mauve-pink. One of the most fragrant of all Lilacs.
- Waldeck Rosseau — double flowers of medium size, in large, long, many-branched clusters; deep violet, darker within than without. A very pleasing variety.

CLASSIFICATION TO COLOR:—As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good idea of color tones, we have divided the Lilacs on our list into seven general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as in the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

White Varieties

- Single Varieties — Frau Bertha Dammann, Jan Van Tol, Marie LeGraye, Mont Blanc.
- Double Varieties — Edith Cavell, Jeanne d'Arc, Mme. Casimir Perier, Mme. Lemoine, Miss Ellen Willmott.

Pink Shades

- Single Varieties — Buffon, Descartes, Lamartine, Ville de Limoges.
- Double Varieties — Emile Lemoine, Edouard Andre, La Mauve, Leon Gambetta, Mme. Leon Simon.

Red Shades

- Single Varieties — Congo, DeCroncels, Diderot, Ludwig Spaeth, Reamur, Rhum von Horstenstein.
- Double Varieties — Adelaide Dunbar, Charles Joly, Mrs. Edward Harding, Paul Thëron.

Blue Shades

- Double Varieties — Desfontaines, Jean Mace, Katherine Havemeyer, Pres. Carnot, Pres. Grevy, Renoncule.

Light Lilac Shades

- Single Varieties — Gen. Sherman, Maurice Barres.
- Double Varieties — Frau Wilhelm Pfitzer, Pres. Faillieres, Vauban.

Dark Lilac Shades

- Single Varieties — Charles X, Hugo Koster, Pascal.
- Double Varieties — Claude Bernard, Michael Buchner, Montaigne.

Violet Shades

- Single Varieties — De Mirabel, Louvois.
- Double Varieties — Alphonse Lavalley, Marechal Lannes, Waldeck Rosseau.

SYRINGA japonica — Japanese Tree Lilac 18-20 ft.

A very large shrub, attaining the proportions of a small tree. Large panicles of creamy white flowers in July long after the bloom of all other Lilacs is gone.

	Per 10	Per 100
18 to 24 inches	2.10	18.00
2 to 3 feet	2.50	22.00
4 to 5 feet	4.00	35.00

persica (*rothomagensis*) — Persian Lilac 8-10 ft.

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep purplish red in very large heads. This variety should properly be called Chinese Lilac. (*Syringa rothomagensis*), as the true Persian Lilac is a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

18 to 24 inches		1.80	15.00
2 to 3 feet	(\$150.00 per 1000)	2.10	18.00
3 to 4 feet	(\$200.00 per 1000)	2.60	22.50

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

SYRINGA villosa Late Lilac or Pink Lilac 8-10 ft.		
A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone.		
2 to 3 feet	2.10	18.00
3 to 4 feet	2.30	20.00
4 to 5 feet	2.80	25.00
vulgaris — Common Purple Lilac 12-15 ft.		
18 to 24 inches	1.30	10.00
2 to 3 feet	1.60	12.50
3 to 4 feet	2.00	17.00
4 to 5 feet	2.50	22.00
TAMARIX hispida — Kashgar Tamarix 12-15 ft.		
The best hardy Tamarix. Slow-growing, compact and upright, with feathery silvery-green foliage and long panicles of bright pink bloom over a long season in early summer.		
18 to 24 inches	1.10	8.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.80	15.00
4 to 5 feet	2.10	18.00
VIBURNUM americanum — American Cranberrybush 8-10 ft.		
Very similar to the European High-bush Cranberry, but a more handsome plant. Profusion of orange-scarlet berries in the Fall.		
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	24.00
3 to 4 feet	3.50	30.00
4 to 5 feet	4.25	37.50
dentatum — Arrow-wood 8-10 ft.		
An upright shrub of dense growth, very good for massing where a medium to tall shrub can be used. Does well on north sides and in partial shade.		
18 to 24 inches	1.50	12.50
2 to 3 feet	1.90	16.00
3 to 4 feet	2.30	20.00
4 to 5 feet	2.80	25.00
lantana — Wayfaring Tree—10-12 ft.		
A handsome large shrub of upright growth with soft thick foliage that turns scarlet in the Fall. Attractive flowers and fruits.		
18 to 24 inches	1.60	13.00
2 to 3 feet	2.00	17.00
3 to 4 feet	2.50	22.00
4 to 5 feet	3.50	
lentago — Nannyberry 15-18 ft.		
A tall upright massing shrub with dark green leaves that turn scarlet in the Fall. Large blue-black fruit.		
18 to 24 inches	2.10	18.00
2 to 3 feet	2.90	25.00
3 to 4 feet	3.75	32.50
molle — Kentucky Viburnum 8-10 ft.		
Similar to Viburnum dentatum, but of slower growth and with more attractive foliage.		
2 to 3 feet	2.10	18.00
3 to 4 feet	2.50	22.00
opulus — European High-bush Cranberry 10 ft.		
A well known tall hardy shrub, with large clusters of scarlet fruit in the Fall that remain on the plant until late in the Winter.		
18 to 24 inches	2.10	18.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.25	27.50
4 to 5 feet	3.75	32.50
opulus sterile — Common Snowball 10 ft.		
The well-known old-fashioned Snowball.		
12 to 18 inches	1.60	13.00
18 to 24 inches	2.10	18.00
2 to 3 feet	2.75	24.00

DECIDUOUS SHRUBS — CONTINUED

WEIGELA Eva Rathke — Red-flowered Weigela 4-5 ft.			
Brilliant crimson flowers, a very profuse bloomer.			
		Per 10	Per 100
2 to 3 feet		2.30	20.00
3 to 4 feet		2.80	25.00
rosea — Pink Weigela 7-8 ft.			
Best known of all of the Weigelas, with very showy pink flowers in late May.			
2 to 3 feet		1.70	14.00
3 to 4 feet		2.10	18.00
Willow, Pusy — see <i>Salix caprea</i> and <i>Salix discolor</i> on pages 12 and 13.			
Witch-hazel — see <i>Hamamelis</i> .			

CLIMBING VINES

AMPELOPSIS engelmanni — Engelman Creeper

A lighter growing type of the well-known Virginia Creeper with sucker-discs that permit it to climb on stone and brick; very hardy.

		Per 10	Per 100
3 year No. 1		\$ 1.25	\$ 10.00
2 year No. 1	(\$60.00 per 1000)	1.10	8.00
2 year medium	(\$50.00 per 1000)	.75	6.00

quinquefolia — Virginia Creeper

3 year No. 1		1.25	10.00
2 year No. 1	(\$60.00 per 1000)	1.10	8.00
2 year medium	(\$50.00 per 1000)	.75	6.00

veitchii (Ampelopsis tricuspidata) — Boston Ivy

The best known and most popular of the stone climbers; attractive foliage that turns brilliant crimson in the Fall.

3 year No. 1		2.10	18.00
2 year No. 1	(\$130.00 per 1000)	1.80	15.00
2 year medium		1.50	12.00

CELASTRUS orbiculatus — Japanese Bittersweet

More vigorous in growth than the Native Bittersweet and fruits more profusely, but the berries are much smaller. Blue-green foliage and showy orange-red fruits.

2 year Extra Heavy		1.50	13.00
2 year No. 1		1.30	10.00

scandens — Native Bittersweet

Yellow-green foliage and very showy large orange-red fruits.

2 year Extra Heavy		1.80	15.00
2 year No. 1	(\$100.00 per 1000)	1.50	12.00
2 year medium		1.20	9.00

CLEMATIS — Large-flowering Hybrids

2 year No. 1, dormant		4.00	35.00
-----------------------------	--	------	-------

Duchess of Edinburgh — double, pure white.

Henryii — single, pure white.

Jackmanni — rich purple

Mme. Edouard Andre — carmine violet

paniculata — Sweet Autumn Clematis

2 year Extra Heavy		2.00	17.00
2 year No. 1		1.75	14.00

LONICERA japonica halleana — Hall's Japan Honeysuckle

2 year No. 1		1.10	8.50
--------------------	--	------	------

LYCIUM chinense — Chinese Matrimony Vine

A rambling shrubby vine, particularly good for holding banks.

Small purple flowers followed by orange-scarlet fruits.

2 year No. 1		1.20	9.00
2 year medium85	6.00

CLIMBING VINES — Continued

POLYGONUM aubertii — China Fleece-vine

A light but very vigorous and rapid grower, covered by a wealth of foamy sprays of small white flowers during the late Summer and early Fall.

	Per 10	Per 100
2 year No. 1	2.50	22.00

VITIS aestivalis — Summer Grape

3 year No. 1	1.25	10.00
2 year No. 1	1.00	7.50

WISTARIA chinensis — Purple Chinese Wistaria

We offer the Wistarias both as seeding plants and as plants grafted from blooming wood of good flowering plants. There is quite a little difference in the blooming ability of different Wistaria plants, and the grafted plants are by far the best to plant where bloom is desired.

Seedlings, 2 year No. 1	1.30	10.00
Grafted from blooming wood, 2 year No. 1	2.50	22.00
Grafted from blooming wood, 2 year medium	2.00	17.00

sinensis alba — White Chinese Wistaria

Grafted from blooming wood, 2 year No. 1	2.80	25.00
Grafted from blooming wood, 2 year medium	2.30	20.00

EVERGREENS

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed, we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selection of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually 10%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

ABIES balsamea — Balsam Fir 60-70 ft.

A tall tree of rapid narrow-pyramidal growth, with lustrous dark green leaves which have a very pleasing fragrance.

	Each	Per 10	Per 100
3 to 4 feet, B&B	\$ 2.00	\$	\$
5 to 6 feet, B&B	3.00		
6 to 8 feet, B&B	3.50		

JUNIPERUS chinensis — Chinese Juniper 15-20 ft.

A broadly pyramidal tree of rapid growth. Grows well in hot dry locations and is also immune to severe cold. Grows compactly with little shearing. A heavier broader tree than the well known Chinese Column Juniper.

4½ to 5 feet, B&B, heavy	4.00	37.50
5 to 6 feet, B&B, heavy	4.75	45.00

chinensis columnaris — Chinese Column Juniper 15-20 ft.

Following "Standardized Plant Names", we are listing this variety as *Juniperus chinensis pyramidalis*, which see.

chinensis keteleeri Keteleer Juniper 15-18 ft.

A splendid type of formal pyramidal outline, compact in growth and very bushy. The leaves are scale-like and very dark green in color. Formerly classified as a variety of *Juniperus virginiana*, but now considered as a variety of *Juniperus chinensis*.

4 to 4½ feet, B&B	3.25	30.00
4½ to 5 feet, B&B	3.65	34.00
5 to 6 feet, B&B	4.00	37.50

EVERGREENS — CONTINUED

JUNIPERUS chinensis mas (mascula) 18-20 ft.

An especially attractive form of *Juniperus chinensis*, forming a broad densely conical tree with slender needle-like gray-green leaves and staminate flowers.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	1.80	16.50	150.00
3 to 3½ feet, B&B	2.20	20.00	
3½ to 4 feet, B&B	2.75	25.00	
4 to 5 feet, B&B	3.25	30.00	

chinensis pfitzeriana — Pfitzer Juniper

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

12 to 15 inch spread, B&B	1.15	10.00	
15 to 18 inch spread, B&B	1.55	14.00	125.00
18 to 24 inch spread, B&B	2.10	19.00	175.00
24 to 30 inch spread, B&B	2.65	24.50	225.00
30 to 36 inch spread, B&B	3.50	32.50	

chinensis pfitzeriana — Special Compact Pfitzer Juniper

A very compact type of Pfitzer Juniper selected by Nick Verberg at Anchorage, Kentucky. A slower grower than the usual type of Pfitzer; very fine foliage with a distinct grayish-green cast.

15 to 18 inch spread, B&B	1.75	16.00	
18 to 24 inch spread, B&B	2.30	21.00	
24 to 30 inch spread, B&B	2.85	26.50	

chinensis pyramidalis glauca — Blue Chinese Column Juniper 20 ft.

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with but little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

2 to 2½ feet, B&B	1.40	12.50	
2½ to 3 feet, B&B	1.90	17.50	
3 to 3½ feet, B&B	2.40	22.50	210.00
3½ to 4 feet, B&B	3.00	27.50	
4½ to 5 feet, B&B	4.00	37.50	
5 to 6 feet, B&B	4.75	45.00	

chinensis sargentii — Sargent Juniper

A prostrate form with creeping stems and ascending branches, forming a close dense mat and therefore an excellent ground cover. One of the hardiest and sturdiest of the creeping Junipers.

12 to 15 inch spread, B&B	1.10	10.00	
15 to 18 inch spread, B&B	1.35	12.50	
18 to 24 inch spread, B&B	1.90	17.50	

communis depressa plumosa — Andorra Juniper

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

12 to 15 inch spread, B&B95	8.00	65.00
15 to 18 inch spread, B&B	1.15	10.00	85.00
18 to 24 inch spread, B&B	1.45	13.00	115.00
24 to 30 inch spread, B&B	1.65	15.00	135.00
30 to 36 inch spread, B&B	1.90	17.50	
36 to 42 inch spread, B&B	2.50	22.50	

communis hibernica — Irish Juniper 10-12 ft.

A very narrow columnar tree with upright branches, giving a very formal effect. We have an exceptionally fine block this year. All of the trees have been grown single stem.

18 to 24 inch, B&B85	7.00	60.00
2 to 2½ feet, B&B	1.00	8.50	75.00
3½ to 4 feet, B&B	2.00	18.00	165.00
4 to 4½ feet, B&B	2.20	20.00	185.00
4½ to 5 feet, B&B	2.50	22.50	

EVERGREENS — CONTINUED

JUNIPERUS excelsa stricta — Spiny Greek Juniper 4-5 ft.			
A slow-growing Evergreen with gray-green foliage that forms a compact well-shaped pyramid. Especially useful in formal plantings.			
	Each	Per 10	Per 100
12 to 15 inches, B&B90	7.50	65.00
15 to 18 inches, B&B	1.15	10.00	85.00
horizontalis Douglasi — Waukegan Juniper			
A trailing Juniper with long branches that make it a very satisfactory ground cover. Steely-blue foliage that turns an attractive purple in the Winter.			
15 to 18 inch spread, B&B	1.00	8.50	75.00
18 to 24 inch spread, B&B	1.15	10.00	90.00
24 to 30 inch spread, B&B	1.40	12.50	115.00
4 to 5 foot spread, B&B	3.00	25.00	
horizontalis glauca — Blue Creeping Juniper			
Similar to the Waukegan Juniper, but more compact in growth; bluish green foliage.			
18 to 24 inch spread, B&B	1.15	10.00	
24 to 30 inch spread, B&B	1.50	13.50	120.00
30 to 36 inch spread, B&B	1.90	16.50	150.00
36 to 42 inch spread, B&B	2.20	20.00	
42 to 48 inch spread, B&B	2.50	22.50	
sabina — Savin Juniper 3-4 ft.			
A very good dwarf form with dark green foliage and spreading ascending branches, forming an irregular vase-shaped bush.			
12 to 15 inch spread, B&B	1.00	8.50	75.00
15 to 18 inch spread, B&B	1.30	11.50	100.00
18 to 24 inch spread, B&B	1.65	15.00	
sabina tamariscifolia — Tamarix Savin 1½-2ft.			
A low spreading form, very compact in growth, with soft textured silvery green foliage.			
12 to 15 inch spread, B&B	1.30	11.50	100.00
15 to 18 inch spread, B&B	1.50	13.50	
scopulorum Chandleri — Chandler's Silver Juniper 20-25 ft.			
A selected form of the Colorado Juniper with frosty silvery-green whip-cord foliage of a striking color. An upright conical tree, the tips of the branches drooping.			
2 to 2½ feet, B&B	1.75	16.00	145.00
2½ to 3 feet, B&B	2.20	20.00	180.00
3 to 3½ feet, B&B	2.60	24.00	
3½ to 4 feet, B&B	3.00	27.50	
4 to 4½ feet, B&B	3.50	32.50	
squamata Meyeri — Meyer Juniper 3-4 ft.			
A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish green in color. A very handsome plant on account of its dense growth and foliage color.			
12 to 15 inches, B&B	1.15	10.00	
15 to 18 inches, B&B	1.60	14.50	130.00
18 to 24 inches, B&B	1.90	17.50	
virginiana — Red Cedar 30-35 ft.			
Platt River type. This is a nice lot of seedlings that are filling out well.			
18 to 24 inches, B&B90	7.50	
2 to 2½ feet, B&B	1.00	9.00	
2½ to 3 feet, B&B	1.25	11.00	
virginiana burki — Burke's Juniper 10-12 ft.			
A dense narrow-columnar form of Juniperus virginiana with bright silvery blue foliage.			
2 to 2½ feet, B&B	1.90	17.50	
2½ to 3 feet, B&B	2.40	22.00	

EVERGREENS — CONTINUED

JUNIPERUS virginiana cannarti — Cannart Red Cedar 12-15 ft.

Probably the best of the many forms of *Juniperus virginiana*. A dense-growing symmetrical pyramid with heavy dark rich green foliage.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	2.50	23.00	
3 to 3½ feet, B&B	3.10	29.00	
3½ to 4 feet, B&B	3.60	33.50	
4 to 4½ feet, B&B	4.25	40.00	
4½ to 5 feet, B&B	4.65		
5 to 6 feet, B&B	5.25		

virginiana elegantissima — Goldtip Red Cedar 12-15 ft.

Often called Lee's Golden Juniper. A striking plant with bronze-green foliage, accented by the golden-yellow tips of the branches. Naturally a low spreading grower, but if staked when young develops a dense broadly pyramidal tree.

2 to 2½ feet B&B, staked upright	1.75	16.00	
2½ to 3 feet B&B, staked upright	2.20	20.00	

virginiana glauca — Silver Red Cedar 15-18 ft.

A narrow columnar tree. The young growth is silvery-blue, changing to a beautiful bluish-green as the foliage matures.

2 to 2½ feet, B&B	1.75	16.00	
2½ to 3 feet, B&B	2.40	22.00	200.00
3 to 3½ feet, B&B	2.90	27.00	250.00
3½ to 4 feet, B&B	3.35	31.00	
4 to 5 feet, B&B	3.75	35.00	

virginiana keteleeri — Keteleer Red Cedar 15-18 ft.

The formerly considered as a type of *Juniperus virginiana*, this variety is now classified under *Juniperus chinensis*, which see.

virginiana pyramidiformia hilli — Dundee Juniper 12-15 ft.

An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the winter.

4 to 5 feet, B&B	3.50	32.50	
------------------------	------	-------	--

virginiana schotti — Schott Red Cedar 12-15 ft.

A compact pyramidal form, very similar to the Cannart Red Cedar, but with lighter yellowish-green foliage and ascending branches.

2½ to 3 feet, B&B	2.00	18.50	
3 to 3½ feet, B&B	2.40	22.00	200.00
3½ to 4 feet, B&B	3.00	27.50	250.00
4 to 4½ feet, B&B	3.50	32.50	300.00
4½ to 5 feet, B&B	3.90	36.50	340.00
5 to 6 feet, B&B	4.50	42.50	

PICEA canadensis — White Spruce 60-70 ft.

A compact upright conical tree that develops into a shapely specimen. Also especially good for windbreaks. The foliage is a light bluish green.

18 to 24 inches, B&B90	7.50	
2 to 3 feet, B&B	1.30	11.50	
3 to 4 feet, B&B	1.75	16.00	
4 to 5 feet, B&B	1.90	17.50	

canadensis albertiana — Black Hill Spruce 50-60 ft.

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

18 to 24 inches, B&B	1.25	11.00	100.00
2 to 2½ feet, B&B	1.65	15.00	135.00

EVERGREENS — CONTINUED

PICEA canadensis glauca conica — Dwarf Alberta Spruce	4-6 ft.		
A miniature Spruce of very slow growth and very dense narrow-conical habit of growth. A very attractive and perfectly shaped dwarf tree with thickly set branches and bright green leaves.			
	Each	Per 10	Per 100
12 to 15 inches, B&B	1.35	12.00	
15 to 18 inches, B&B	1.65	15.00	
excelsa — Norway Spruce	80-90 ft.		
The best known of all of the Spruces; a symmetrical well formed pyramid with graceful drooping branches. One of the best evergreen trees for screen or windbreak plantings. We have a very good block of trees that have been regularly sheared.			
18 to 24 inches, B&B80	6.50	
2 to 2½ feet, B&B	1.00	8.50	
2½ to 3 feet, B&B	1.15	10.00	90.00
3 to 4 feet, B&B	1.40	12.50	110.00
4 to 5 feet, B&B	1.80	16.50	140.00
5 to 6 feet, B&B	2.10	19.00	175.00
pungens glauca — Colorado Blue Spruce	60-80 ft.		
Seedling plants selected for color.			
2 to 2½ feet, B&B	3.00	27.50	
pungens kosteri — Koster Blue Spruce	50-60 ft.		
One of the best of the grafted types of Colorado Blue Spruce, with foliage of an even bright silvery blue.			
2½ to 3 feet, B&B	4.75	45.00	
3 to 3½ feet, B&B	5.75	55.00	
3½ to 4 feet, B&B	7.00	67.50	
PINUS nigra — Austrian Pine	60-70 ft.		
A handsome tree of broadly pyramidal growth, best of the ornamental Pines, for this area. Deep rich green foliage.			
18 to 24 inches, B&B	1.10	10.00	
2 to 2½ feet, B&B	1.45	13.00	
2½ to 3 feet, B&B	1.65	15.00	
TAXUS cuspidata — Japanese Yew			
While comparatively new as far as planting in the Central West is concerned, the Japanese Yew has already established itself as one of our most valuable evergreens. It is one of the few evergreens that really does well in shaded places, and yet it does equally well in the sun. It can stand very heavy pruning, so is a valuable hedge plant. It is a variable plant of many forms. The foliage is always a clean dark lustrous green.			
cuspidata — Spreading Japanese Yew	10-12 ft.		
A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.			
18 to 24 inch spread, B&B	3.00	27.50	
24 to 30 inch spread, B&B	3.75	35.00	
30 to 36 inch spread, B&B	4.50	42.50	
cuspidata capitata — Upright Japanese Yew	25-30 ft.		
The upright form of the Japanese Yew, a broad conical tree with upright branches.			
18 to 24 inches, B&B	2.50	22.50	
2 to 2½ feet, B&B	3.25	30.00	
2½ to 3 feet, B&B	3.75	35.00	
3½ to 4 feet, B&B, heavy	5.00	47.50	
4 to 4½ feet, B&B, heavy	6.00	57.50	
cuspidata intermedia — Intermediate Yew			
A compact grower, similar in form to <i>Taxus cuspidata</i> , with deep green waxy foliage. One of the best of the spreading types.			
15 to 18 inch spread, B&B	2.60		
18 to 24 inch spread, B&B	3.00		

EVERGREENS — CONTINUED

TAXUS media Hicksii — Hick's Yew 15-18 ft.

A very attractive form with numerous ascending branches and rich dark glossy green foliage. Usually grown as a narrow columnar tree for accent purposes.

	Each	Per 10	Per 100
2 to 2½ feet, B&B, heavy	3.50	32.50	

media Hunewelliana — Hunewell Yew

We believe that this is one of the most promising of the newer types of Yews for this section of the country. It is a very rapid compact grower with attractive dark green foliage that does not change color in the winter. It is much more rapid in growth than any other Yew that we have had here at Princeton and has distinct possibilities as a hedge plant.

15 to 18 inch, spread, B&B	2.60	24.00	
18 to 24 inch spread, B&B	3.00	27.50	
24 to 30 inch spread, B&B	3.75	35.00	

THUYA occidentalis — American Arborvitae 20-30 ft.

A very good compact dark green type.

6 to 8 feet, B&B	3.50	32.50	
8 to 10 feet, B&B	4.25	40.00	
10 to 12 feet, B&B	6.00	55.00	

occidentalis douglassi aurea — Douglas Golden Arborvitae 20-25 ft.

Hardest of the golden types of Arborvitae. Very similar to the American Arborvitae, but with the new foliage a bright golden green.

4 to 5 feet, B&B	2.00	17.50	
5 to 6 feet, B&B	2.50	22.50	
6 to 8 feet, B&B	3.00	27.50	

occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.

The most popular of the Arborvitae types, with deep green foliage that holds its color well thru the Winter. A narrow columnar pyramid, splendid for accents in formal plantings.

18 to 24 inches, B&B	1.15	10.00	85.00
2 to 2½ feet, B&B	1.40	12.50	110.00

occidentalis warreana — Siberian Arborvitae 12-15 ft.

The hardest of the Arborvitae types. Slow-growing, compact, conical, with a deep green foliage that does not turn color in the Winter.

2 to 2½ feet, B&B	1.25	11.00	
2½ to 3 feet, B&B	1.40	12.50	110.00
3 to 3½ feet, B&B	1.75	16.00	

TSUGA canadensis — Canadian Hemlock 75-90 ft.

One of the most graceful and adaptable of the larger growing Evergreens. Ordinarily growing as an upright conical informal tree, it adapts itself easily to trimming as a hedge. Does well in partial shade.

2 to 2½ feet, B&B	1.90	17.50	
2½ to 3 feet, B&B	2.40	22.50	
3 to 3½ feet, B&B	2.80	26.00	
3½ to 4 feet, B&B	3.50	32.50	

ROSES

We have a very nice lot of well matured and carefully graded Oregon grown Roses to offer this Spring — no southern stock. All of the plants are budded on Multiflora Japonica unless otherwise specified.

Source of Roses Important—The Middle West, with its hot dry summers, is a hard climate in which to flower Roses and the source of planting stock has been found to be almost as important an item in successful Rose growing here as is the selection of varieties. For a number of years we have been using these Oregon grown Roses and have found that they have given better results than those we have had from any other source. They are sturdy, well rooted and well matured plants, without any coarse overgrowth. They are somewhat more expensive than southern grown Roses, but are well worth the difference in price. We do not offer any southern grown Roses.

Many of the varieties of Hybrid Tea Roses are not adapted to the hot dry summers of this section of the country, and in offering this selection we have attempted to confine ourselves to varieties of merit particularly selected for vigorous growth and free blooming characteristics under the usual weather conditions in the Middle West.

TEA and HYBRID TEA ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Ami Quinard —a vigorous grower with dark blackish-garnet buds opening dark velvety crimson, very fragrant	\$ 2.90	\$ 25.00
Betty Uprichard —salmon pink, stained coppery red on the outside of the petals, very fragrant; buds copper red	2.90	25.00
Christopher Stone —a finely formed and very fragrant rose with bright scarlet flowers. Dark green disease resistant foliage	3.25	28.00
Condesa de Sastago —a very free-flowering two-toned rose of strong bushy growth. The flowers are fragrant and very double, golden yellow without, deep coppery pink within.....	2.90	25.00
Dame Edith Helen —one of the largest and most perfectly shaped of the Hybrid Teas; bright glowing pink, very fragrant; one of the best out-door roses for this section	2.90	25.00
Duquesa de Penaranda —a strong vigorous variety, very free-flowering; apricot orange to dark pink	2.90	25.00
Edith Nellie Perkins —long-pointed buds; rich orange-pink outside, salmon pink inside of petals	2.90	25.00
E. G. Hill —large and massive blooms of deep velvety maroon.....	2.90	25.00
Etoile de Hollande —the finest dark red rose for this section; a strong grower and free bloomer, very fragrant	2.90	25.00
Francis Scott Key —brilliant crimson; both buds and blooms are exceptionally large, double, and well shaped	2.90	25.00
Glowing Carmine —a tall vigorous grower and continuous bloomer with long-lasting deep carmine blooms	3.25	28.00
Golden Pernet (Mons. Julien Potin) —deep golden, yellow, with a much richer color than the original Pernet, which it holds without fading	3.25	28.00
Grenoble —a tall vigorous grower. Scarlet-red flowers that do not fade. One of the better reds for this area	3.25	28.00
Gruss an Teplitz —the hardiest of the Hybrid Tea Roses, a very free and continuous bloomer, deep scarlet-crimson	2.90	25.00
Joanna Hill —very double bloom, the center is Indian Yellow, surrounded by petals of a golden-buff shade	2.90	25.00
Julien Potin —See Golden Pernet		
Kaiserin Auguste Viktoria —free-flowering, very double, pure white, the standard pure white bedding rose	2.90	25.00
Lady Margaret Stewart —very large, a vigorous grower, copper orange buds opening a bright yellow	2.90	25.00
Mme. Edouard Herriott —a very brilliant coral-red, shaded orange and scarlet	2.90	25.00

HYBRID TEA ROSES — Continued

	Per 10	Per 100
McGredy's Ivory—a vigorous disease-resistant plant. Very large long-pointed buds and perfectly shaped creamy white flowers that shade toward yellow at the base of the petals	3.25	28.00
Mme. Joseph Perraud—long, slender, pointed, fragrant buds; blooms orange buff shading to deep pink at the petal margins, a really superior rose	3.25	28.00
Mme. Jules Bouche—a medium sized but superb white with a tinge of blush pink at the center	2.90	25.00
Mrs. Charles Bell—soft salmon pink, very sweetly perfumed. One of the best of the Radiance type	2.90	25.00
Mrs. Erskine Pembroke Thom—canary yellow; long buds and large well-shaped flowers; vigorous and free flowering.....	2.90	25.00
Mrs. Henry Bowles—clear rose-pink shaded salmon, vigorous and free flowering	2.90	25.00
Mrs. Pierre S. DuPont—reddish gold in bud, opening to a deep yellow. A strong vigorous grower and profuse bloomer	3.25	28.00
Mrs. Sam McGredy—a very fine tri-color with long-pointed buds and large scarlet-copper-orange flowers that are flushed with red on the outside of the petals. A vigorous disease resistant plant and a prolific bloomer	3.25	28.00
President Herbert Hoover—one of the most popular Hybrid Teas for this area. A glorious rose with long-pointed buds and large full flowers, very fragrant; an unusual combination of orange, gold, and maroon	2.90	25.00
Radiance—large, brilliant rose-pink. The Radiance type is one of the best for this section of the country, as it will continue to produce flowers during the most unfavorable hot weather. Strong upright grower, free bloomer	2.90	25.00
Red Radiance—a free-blooming bright rosy-red counterpart of Radiance, of sturdy growth and delightful fragrance	2.90	25.00
Rouge Mallerin—large, long-lasting and very double blooms of a striking velvety red. A very promising variety	3.25	28.00
Souvenir de Claudius Pernet—pure sunflower yellow; the old stand-by for a pure yellow rose	2.90	25.00
Souvenir de Mme. C. Chambard—large, semi-double, fragrant flowers; the outer petals are a deep rose-red, the inner petals a deep salmon pink shaded gold. A vigorous upright grower.....	2.90	25.00
Talisman—long-pointed orange-red buds; the blooms are golden yellow suffused with apricot and coppery red	2.90	25.00
Ville de Paris—a distinct pure deep yellow rose with the unusual characteristic that its color does not fade	2.90	25.00

CLIMBING AND RAMBLER ROSES

2 Year No. 1—Buds Except Where Marked (OR)

	Per 10	Per 100
Climbing American Beauty—vigorous, hardy, free-flowering; the blooms are large, very double, and bright crimson	\$ 2.60	\$ 22.00
Climbing American Beauty—2 year medium	2.10	18.00
Crimson Rambler (OR)—small ruffled bright scarlet double flowers in clusters	2.30	20.00
Dorothy Perkins (OR)—soft shell pink, small double flowers in clusters	2.10	18.00
Dr. Van Fleet—rich shell pink, pointed buds, large semi-double flowers	2.60	22.00
Excelsa (Red Dorothy Perkins) (OR)—intense scarlet, large clusters of small flowers, probably the best of the red Ramblers.....	2.10	18.00
Gardenia—a rich creamy yellow Rambler	2.10	18.00
Paul's Scarlet Climber—large well-shaped semi-double flowers in clusters, a vivid scarlet that fades but little, the most popular Climbing Rose	2.60	22.00
Silver Moon—long creamy-white buds, flowers very large, semi-double, silvery white showing yellow stamens	2.60	22.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

HYBRID PERPETUAL ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
American Beauty—a well known and very popular variety, fragrant, brilliant light crimson	\$ 2.90	\$ 25.00
Frau Karl Druschki (Snow Queen)—the best pure white rose	2.90	25.00
General Jacqueminot—clear bright crimson, a very free bloomer, an old garden favorite	2.90	25.00
Paul Neyron—bright deep pink, a fine variety and one of the largest of all Hybrid Roses	2.90	25.00
Ulrich Brunner—rich cherry red, a strong vigorous grower	2.90	25.00

HYBRID RUGOSA ROSES

2 Year No. 1 — Buds Except as Noted

	Per 10	Per 100
Agnes—a fine amber-yellow Rugosa, free-flowering and fragrant; a new color in Rugosas	\$ 2.90	\$ 25.00
Amelie Gravereaux—very deep crimson, double; very strong grower; one of the best of the Rugosas	2.50	22.00
F. J. Grootendorst—small double brilliant crimson flowers in clusters; a very fine bedding rose that blooms from May until November	2.50	22.00
Grootendorst Pink—a pink counterpart of F. J. Grootendorst.....	2.50	22.00
Hansa (OR)—a medium grower with large double deep reddish-violet flowers	2.30	20.00
Sir Thomas Lipton (OR)—double, pure white, a very vigorous grower	2.00	

DWARF POLYANTHA OR BABY ROSES

2 Year No. 1 Buds — All Northern Grown

	Per 10	Per 100
Else Poulsen—a free-flowering variety of the Floribunda type, with long-lasting bright rose-pink flowers	\$ 2.90	\$ 25.00
Golden Salmon—a continuous bloomer, fine for mass planting. Large clusters of striking reddish-orange buds and blooms.....	2.90	25.00
Ideal—dark scarlet, in immense compact clusters, one of the most free-flowering and continuous bloomers of the class	2.90	25.00

MISCELLANEOUS ROSE SPECIES

Rosa blanda (Meadow Rose)—2 to 3 feet	1.75	14.00
Rosa blanda (Meadow Rose)—3 to 4 feet	2.00	17.00

Rosa lucida (Rosa virginiana) (Virginia Rose)—3 to 4 feet	1.90	16.00
Rosa rugosa rubra (Japanese Ramanas Rose)—18 to 24 inches.....	2.60	22.00
Rosa setigera (Prairie Rose)—2 year No. 1, 2 to 3 feet	1.60	13.00
Rosa setigera (Prairie Rose)—3 year No. 1, 3 to 4 feet	2.00	16.00

LINING-OUT STOCK

We do not ordinarily attempt to grow Lining-out Stock beyond our own requirements, but have a surplus in some items to offer for shipment this Spring. All of the plants offered are strong, heavy, well graded plants suitable for lining out directly into the field.

	Per 100	Per 1000
Calycanthus floridus, 2 year seedlings, 10 to 12 inches	\$ 2.75	\$ 22.00
Calycanthus floridus, 2 year seedlings, 12 to 15 inches	3.00	25.00
Chionanthus virginica, 2 year seedlings, 6 to 9 inches	4.50	
Cornus mas, 2 year seedlings, 6 to 10 inches	3.00	25.00
Cornus mas, 2 year seedlings, 10 to 15 inches	3.75	32.50
Deutzia Pride of Rochester, 1 year cuttings, 12 to 18 inches	2.50	20.00
Forsythia fortunei, 1 year cuttings, 15 to 24 inches	2.75	22.50
Forsythia suspensa, well rooted layers	3.50	30.00
Philadelphus coronarius, 1 year cuttings, 12 to 18 inches	2.75	22.50
Rhodotypos kerrioides, 2 year seedlings, 10 to 12 inches	3.00	25.00
Rhodotypos kerrioides, 2 year seedlings, 12 to 15 inches	3.50	30.00
Sorbaria sorbifolia, well rooted layers	2.00	16.00
Viburnum lentago, 2 year seedlings, 6 to 10 inches	4.00	32.50

PEONIES

The Peonies offered in this list are in storage and can be held in good dormant condition until the season is well advanced.

For a complete list of the varieties of Peonies that we have to offer, please refer to our special Peony list for the Fall of 1940, a copy of which will be sent on request. Peonies have been a specialty with us for many years and we are growing a very comprehensive list of varieties.

Figures following the name of the variety show ratings according to the classification of the American Peony Society.

GRADE:—All of the plants offered are strong divisions of two and three year old clumps carrying from 3 to 5 eyes; well rooted, well balanced, and well developed plants. All have been grown for plants only—we do not offer divisions of old cut-flower plants.

PEONIES TO COLOR

We make these up from named varieties of our own selection, shipping without differentiation of varieties.

	Per 10	Per 100	Per 1000
Double Pink	\$ 1.00	\$ 7.00	\$ 55.00
Double Red	1.10	9.00	70.00
Double White	1.00	8.00	60.00

EARLY WHITE PEONIES

	Per 10	Per 100
Festiva Maxima (9.3)—Pure white, crimson flecks on center petals...\$	1.70	\$ 14.00
Mme. de Verneville (7.9)—Blush-white changing to pure white, center flecked crimson; free flowering and dependable	1.10	8.00
Queen Victoria (7.2)—Milk-white, very early	1.10	8.00

MIDSEASON WHITE PEONIES

Avalanche (Albatre) (8.7)—Very large and double, of waxy texture, one of the finest whites	1.30	10.00
Baroness Schroeder (9.0)—Pale flesh-pink changing to almost pure white. A very fine variety; very free flowering	2.30	20.00

LATE WHITE PEONIES

Couronne d'Or (Crown of Gold) (8.1)—Full, evenly rounded bloom; snow white showing yellow stamens at the center.....	1.30	10.00
Marie Lemoine (8.5)—Pure white with just a trace of yellow	1.50	12.00
Solange (9.7)—An outstanding variety of fine form and unusual coloring; creamy white suffused buff and pale salmon pink....	4.00	35.00

EARLY PINK PEONIES

Edulis Superba (7.6)—Clear deep bright-rose-pink, a remarkably free bloomer	1.10	8.00
Floral Treasure (Delicatissima) (7.5)—Clear even pale-lilac-rose....	1.10	8.00
Octavie Demay (8.5)—Very dependable and attractive; large flat blooms of soft old-rose-pink, plant rather dwarf	1.50	12.00

MIDSEASON PINK PEONIES
